App. F. III—2]

General and Revenue Secretariat. V. P File No. 88 of 1929.

Serial No.	
1	Letter no. C 1718/29-30 ; dated 7/5/30 from the Rev commr in Mysore, requesting sanction to the preparation of a ~~film~~ mahad film at a cost of about Rs 5000/- and to the deputation of Dr Varada Iyengar and Mr. V. Rangaswamy for a period of 2 to 3 weeks to visit the places of which films have to be taken.
	The Revenue commr states that he will provide immediately a sum of Rs 2100/- which was meant for the preparation of special films in Go no L 7759-60 VP 50-29-8 of 20.4.30 which he says, he has saved; but he is silent as to how the balance of the cost will be met. This has probably to be met from out of the Rural reconstruction grant if the proposal is sanctioned.
	2 Again, the Rev commr does not say, what would be the probable cost of D.A and deputation charges of the officers in question and how the same will be met.
	3 The points for orders are
	1) Sanction to the deputation of the officers for a period of 2 to 3 weeks.
	2) Cost of D.A and deputation charges incidental thereto and how the same will be met

Possibly this is included in the estimated expn of Rs 5000/- MW 14/5

OFFICE OF THE REVENUE COMMISSIONER
IN MYSORE,

Dated Bangalore 7th May 1930

FROM Rajakaryapravina
P. G. D'SOUZA, ESQ., B.A., B.L.,
REVENUE COMMISSIONER IN MYSORE.

To

The Secretary to the Government
of His Highness the Maharaja of Mysore,
Development Departments, *Bangalore.*

SIR,

I have the honor to state that as Government may be aware, the Rural Reconstruction Film which I got prepared last year, has been very popular, and has been very successfully demonstrated in the Bangalore, Kolar and Tumkur Districts. It has brought a large number of people together and afforded occasion for the various agencies concerned with rural improvement to impress upon the rural people several useful ideas in regard to their improvement. The conditions which are portrayed in that film refer more or less to the maidan areas. As it was also prepared under great pressure, it has not been possible to include in it all useful information that may be imparted by means of these films.

2. It is very necessary to prepare another film portraying the malnad conditions. A visual demonstration of maidan conditions to malnad people will have its own educative value and vice versa.

3. I have discussed with Dr. Varada Iyengar and Mr. T. Rangaswami who were mainly responsible for the preparation of the existing film, as regards the preparation of a malnad film. They have submitted a note which indicates generally the scenes that may be introduced into the malnad film. (A copy is attached herewith). It is sufficiently comprehensive and will enable us to give a very instructive picture in regard to the malnad. The scenario and the story will be adapted so as to make the film as instructive as possible. As the rains are fast approaching, it is absolutely necessary to start this work immediately. The cost of the film is likely to be about Rs 5000/-. I am now in a position to provide

8

immediately a sum of Rs 2100/-, as the amount of Rs 2100/- referred to in G.O. No.1759-60/V.P.50-29-8 dated 29th April 1930 has been saved for this purpose.

4. I request immediate sanction of Government for the preparation of a malnad film and to depute Dr. Varada Iyengar and Mr. T. Rangaswami for a period of 2 to 3 weeks to visit the places of which films have to be taken. As the matter is very urgent, I request that immediate orders may be passed sanctioning my proposals, so that the film may be in readiness in time for the next Dasara Exhibition. If the present opportunity is lost, it will not be possible to do this work before next year, as proper pictures cannot be taken during the monsoon.

I have the honor to be,

Sir,

Your most obedient servant,

Revenue Commissioner.

M.B.R.

THE MALNAD FILM.

A film representing the magnificent scenes of malnad, places of historical interest, people their habits and customs produce peculiar to malnad conditions, the variousss causes at work in the dissemination of malnad -- diseases, economic condition, and various other factors, -- the work inaugurated by the Government to resuscitate the malnad.

Decimation?

The three western districts of Hassan, Kadur and Shimoga which are reckoned as malnad or the hilly tracts of Mysore State, present a land of magnificent hills and forests with a range of scenery abounding with every charm of tropical and mountain wilds. The sheltered hill sides are beautiful with waving woods which afford shade to numerous plantations. Trees of the largest size stand thickly together over miles of unbroken ranks.their giant trunks entwined with creepers of pantheon, dimensions, their massive arms decked with glossening orchids. Birds of rare plumage flit from bough to bough,packs of wild dogs cross the path hunting in company and the warning booming languer monkey is heard from lofty trees. The bamboo forest has beauties of its own. Lively gardens of the elegant arica palm, the Kane with rich hues of wild cinamon and& sombre green of the jack, intermingled with truncated leaf of the Bagani palm and the waving bunches of pepper vine, the magnificent avenues of dhupa tree -- all unite to varied attractions of a region replete with natural beauty. The view of the head of the descent to the Sarsaw falls of Gersoppa is probably one of the richest bits of scenery in the world.

Of the mountain ranges, Baba Buddan. the loftiest range on the Mysore Tableland forms a horse-shoe shape chain. The character of the chain is that of a stupendous ridge 6000 feet above the level of the sea and in some parts only a few yards wide at the summit. The summit of the hills consists of steep glassy slope well wooded with ravines through which flow perennial springs. The sides are densely clothed with forests among which are numerous

Belagavi. This is a village remarkable for its antiquities. It contained 5 Mathas and 3 Puras. It was in a prosperous condition under the Hoysala Rajas. The place abounds with ancient inscriptions.

Keladi. This was the first capital of Sivappanayaka of Nagar.

Ikkeri This was the capital of Ikkeri Chiefs, who moved here from Keladi. The temple of Aghoreswara is the only relic of its former greatness.

Jog. The magnificent Falls of Gersoppa or Jog are unquestionably the grandest natural beauty in Mysore. The Sharavati, which rises at Ambu-tirtha in the Tirthahalli taluk, here reaches a tremendous chasm 960 feet in depth. The water comes down in four distinct falls presenting a scene of transcendent grandeur and subhimity whose effect is heightened by the wild and beautiful country around.

The Raja Fall pours in one unbroken columnxkx sheer to the depth of 830 feet. Halfway down it is encountered by the Roarer, another fall, which precipitates itself into a vast cup and then rushes violently downwards at an angle of 45° to meet its famous compeer. A third fall, the Rocket, shoots downwards in a series of jets; while the fourth, called the Dame Blanche is a cascade gliding quietly over the mountain side in a sheet of foam.

Nagar. This was originally called Bidarur or Bidur. It became the capital of the Keladi chiefs who transferred the seat of government from Ikkeri. There is an old fort which was built by these chiefs.

Basavanabyana. This is a place near Nagar containing a pleasure-garden of the Nagar chiefs. There are six ponds of an artistic nature called Devaganga ponds.

Kowledurg. This is a hill in a wild and inaccessible region. This was the stronghold of the Bidnur chiefs. The old town of Kowledurg which is to the west of the Durg was formerly the headwuarter of the present Tirthahalli taluk.

Belur: Its sanctity is due to the celebrated temple of Chenna Kesava, erected and endowed by the Hoyasala king Vishnuvaraddhana, on the occasion of his exchanging the Jain faith for that of Vishnu, in the beginning of the 12th century. The carving with which the temple is decorated rivals in fertility of design and perfection of finish that of the Halebid temple, and is attributed to the same master hand, that of the famous Jakanachari.

Halebid: The splendour of the city is attested not only by the account of the fabulous riches obtained from its conquest as related by Muhammadan historians, but by its architectural monuments, which still rank among the masterpieces of Hindu art. The plain Jain bastis, though cast completely into the shade by the ornate Saiva temples are also striking buildings.

Sarvana-Belgola. It is the chief seat of the Jain sect, being the residence of the principal guru. At the summit of Vindhya betta or Indra betta, 3250 feet above the level of the sea, and about 400 feet above the village below, is the colossal statue of Gomatesvara.

Ayyankere or Dodda Madagal-kere. It is situated at the eastern base of the Baba Budan range, being formed by embanking the perennial stream of the Gauri halla at the foot of Sakunagiri. Its outflowing waters are called the Veda, which unite, after a short course, with the avati near Kadur and forms the joint stream of the Vedavati. The construction of this magnificent reservoir is attributed to Rukmangada Raya, the ancient king of Sakkarepatna.

Bund Ghat. The Bund Ghat (coffee ghat) is the principle outlet to the western coast from the south of the Hassan District.

Gangamula. The legend is that after Vishnu, incarnate as the Varaha or Boar, had raised up the earth from the waters of the ocean, into which a Daitya named Hiranyaksha had carried off and plunged it, he took his stand on this mountain, and the drops which trickled from his two tusks formed respectively the twin streams the Tunga and Bhadra.

Sringeri. ~~It is administered in imitation of the Mysore revenue system.~~ It is a jagir in Koppa taluk, belonging to the chief matha of the Smarta Brahmans. The jagir seems, from an inscription at the place, to have been granted as an enddwment of the matha in 1346 by Hariyap-Odeyar (or Harihara, the first king of Vijayanagar)

coffee plantations as well as in the Jagger valley. which is one stretch of forest as far as eye can reach. Hindu puranas name it Chandradorna but it derives its present name from a Mohamedan saint who took up his residence on one of its southern slopes. He is stated to have introduced coffee seeds which he obtained from Mocca. The cave is said to contain the tomb of Baba Buddan while the Hindus claim it to be the throne of Dattatraya.

FAUNA.

The land abounds in large game, bison being found in the Malnad tracts and tigers panthers and bears all over the parts Sambre, Chitel, and jungle sheep are general in the wooded tracts Elephants are also sometimes found. The cobra and the carpet snake are the most venomous. Leeches are numerous and active during rainy months.

Of fishes, mahseer, probably the best fresh water fish in India is sometimes found in the rivers and reaches to a weight of 20 pounds.

PLACES OF HISTORICAL INTEREST.

Ranthebennur. This was founded by a chief of the Basavapatna family about the 16th century. One of the chiefs built a palace here and constructeda beautiful honda (reservoir) in front of the ancient temple of Ranganatha, with ornamental pavillions at the angles and in the centre. The central pavillion called the vasantha-mantapa had a fountain playing from the top. [redacted] The reservoir is now in pretty good condition but the vasantha-mantapa is in ruins

Basavapatna. This was originally the strong hold of the Basavapatna Chiefs subsequently known as the Tarikere Pallegars.

Sulekere. It derives its name from a King's daughter who built it about the 11th or 12-th century. It was till the construction of the Marikanave reservoir in the Chitaldrug district, the largest artificial reservoir in Mysore. Its margin is said to be 40 miles round and it receives the drainage of 20 square miles.

REV. SECTT. 6114 10 JUNE 1930 L. S. G. BRANCH

To General
The Chief Secretary to the Government
of His Highness the Maharaja of Mysore,
Bangalore.

SIR,

Adverting to your letter No. L. 8549/V.P.88-29-2 dated 22nd May 1930 declining to accord sanction to the preparation of a Malanad Film on financial considerations, I have the honor to state that the District Boards of Shimoga, Chitaldrug and Kolar have agreed to make available a sum of Rs 1000/- each for preparing films pertaining to the respective districts. Thus, a sum of Rs 3000/- is available for the preparation of films. This amount together with a sum of Rs2100/- to be appropriated out of the savings resulting by the abolition of the posts of Village Panchayet Inspectors in Chitaldrug District as already proposed (vide correspondence ending with G.O. No. L. 7759-60/V.P.50-29-8 dated 28th April 1930), will enable this office to have the films pertaining to the three Districts prepared. I request that sanction of Government may be kindly obtained to the present proposal.

2. It is proposed to start the work in Chitaldrug District in July 1930. A brief outline of the film relating to this District is enclosed. After Chitaldrug is over, filming of Kolar District will be taken up and Shimoga District will be taken up after the monsoons cease, i.e., about the middle of October next. The sum of Rs 2100/- made available by Government grant will be made use of for purchasing film material - negative and positive- and preparing charts and other materials required. These charges are proposed to be incurred this month alone, so that the funds may not lapse. I therefore request that very early sanction of Government may be obtained on the above proposal

G.R.S. III—3]

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

A complete set of orders issued up-to-date subsequent to the compilation already made is put up with this manual

Rest been forwarded on 27/8

83
19/8/29

Orders have first to be arranged subject-wise and then passed in the proper place before sending the same to Press. The work also requires time and is not one that can be attended to along with the current work. The orders may first be issued in book form subject-wise as in the manual already printed and the work arranged to be taken up exclusively

83
27.8.29 I shall look into this personally and submit it in about a month. The Kannada translation of the Manual is now in progress and it would be better to issue it in a final form after the manual is brought up-to-date. If

N.B.—Should routine notes be written on small slips, the notes must be copied, or slips pasted on this form.

as approved, the Trans. Section may be informed accordingly.

29/8/29

29/8 The work of translation

24

3. It may be added that this modified scheme does not involve any fresh grant from Government. I request that you will kindly obtain very early sanction of Government to the Scheme and drawing Rs 2100/- immediately to advance for the purchase of positive and negative films etc.

I have the honor to be,

Sir,

Your most obedient servant,

Revenue Commissioner.

M.B.R.

Brief Outline of the Film.

1. Map of Chitaldrug District.
2. Guinea Worm survey map of the District.
3. Actions so far taken to prevent the spread of the disease.
4. Soil - showing the peculiarities.
5. The principal crops of the District.--
   (1) Cotton.
   (2) Jola.
   (3) Cocoanut cultivation.
6. Principal method of irrigation - "Kapila wells".
7. Manufactures: -
   (1) Kambalies - Davangere and Jagalur.
   (2) Cotton fabricks - Harihar and Davangere.

   The above two to be shown in detail.

   (3) Silk fabricks - Molakalmuru.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

General and Revenue Secretariat

Bangalore, Dated,.....1930.

No.

From

R. RANGA RAO, Esq., B.A., B.L.,
General Secretary to the Government of His Highness the Maharaja of Mysore.

To

Rajakaryapravina

P. G. D'Souza, Esq., B.A., B.L.,

Revenue Commissioner in Mysore.

Sir,

With reference to your letter No. C. 1718, dated 8th June 1930 requesting a reconsideration of the orders of Government declining to sanction a scheme for the preparation of a Malnad Film, and soliciting sanction to immediately utilise the sum of Rs. 2,100 already available for the purchase of films etc., I am directed to state that Government do not consider it necessary to launch the scheme at present and they regret that your proposal for the purchase of the film materials cannot be sanctioned. The scheme requires further consideration as regards provision of funds for maintenance, the source from which the required amount has to be provided and other connected matters.

I have the honor to be,

Sir,

Your most obedient servant,

V Subrahmanyasastri

For General Secretary to Government.
